

Oak Grove is nestled amongst a grove of oak trees and is the most private group picnic area located just beyond the paved parking lot. There are plenty of tables, grills and shade. Large enough for your church group or company and small enough for your team or scout troop. There is no electricity and this area is not covered with a structure. The full-service bathrooms are available just a short walk to the main building. Your guests would park in the paved parking lot or on grass area near this picnic area. The last name of the approved permit holder is the name given in order to pass through the guard house when staffed. A food truck is welcomed in this area for your event but they will need to have their own power. No bounce houses or water slide allowed at this site.
